## The Ultimate Hunting Partner

The world's most demanding hunters along with outfitters, lodge owners and big game guides all agree. When the going gets tough – the tough get going with the ARGO Conquest Outfitter 8x8. For 2021 the All-New Conquest Outfitter takes on the bold styling lineage from the Frontier and Aurora

### IN NATURE ONLY THE STRONG SURVIVE

Make no mistake about it. The Conquest Outfitter is built to perform in the world's toughest terrain. Its powerful 800 (30HP) V-Twin Liquid Cooled and 950 (40HP) V-Twin Fan Cooled engines with electronic fuel injection deliver outstanding fuel efficiency, cleaner exhaust emissions and sharper throttle response in all climate conditions, including high altitudes.

The Conquest Outfitter's CVT driven and bulletproof Admiral Transmission comes equipped from the factory in High Torque (HT) configuration and is capable of reaching speeds up to 19 mph • 30km/h. High Torque is built to perform in the world's toughest conditions and is best for moving heavy loads, powering high track usage and operating on high altitude and for slow-speed continuous operation. The selectable High / Low transmission allows

the driver to choose between steering smoothly for fast moving ground travel or, when Low is selected, to benefit from zero-radius turning for navigating challenging terrain.

When reliability is crucial the Outfitters auto chain lubrication system simplifies routine maintenance to ensure smooth, dependable operation regardless of the environment or the demands of the operator.

Legendary ARGO high ground clearance, incomparable amphibious capability and rugged exterior lets you explore seemingly impassable terrain other UTV's only dream about. High-density polyethylene body, skid plates and heavy-duty welded steel brush-guards protect the Outfitter and its passengers from trail hazards and undercarriage damage. Eight meaty low-pressure tires securely mounted to ARGO's signature AirLock™ steel offset rims take on unforgiving terrain while also allowing operators to achieve a 30% smoother ride.

The Outfitters well-appointed cockpit comes standard with heated hand-grips for driver and front passenger, a new unobstructed dash with Multi-Functional gauge and new dual Hi/Low projector beam headlights that provide the highest level of illuminated contrast. Additional appointments include a rear dual-entry step that provides easy access to premium seating for six with upgraded front and rear seat cushions with large handrails in the rear

seating compartment for passengers to hold onto.

The Conquest Outfitter is a force to be reckoned with its reinforced steel beam exterior construction and large detachable front rack. The brawny Outfitter delivers more than exceptional strength and rugged good looks. It boasts the load capacity of 1,170-pounds which easily accommodates multiple passengers with cargo and with 7.1-gallon fuel tank capacity you can explore for days without having to worry about filling up. A 4500-lb Warn winch mounted to the heavy-duty front bumper makes easy work of pulling obstacles from its path and its 2-inch rear receiver lends itself to the Outfitters massive 2,000-lb towing capacity.

The Conquest Outfitter comes standard with a front brushguard, a front storage rack and is available in Breakup Country or Shadow Grass Camo.

## Argo Conquest OUTFITTER 8x8

## All-Terrain Amphibious Body

Evolved and refined from more than 50 years of amphibious vehicle development, the one-piece high-density polyethylene (HDPE) lower body is ARGO's signature design feature. The smooth and durable underbody floats over potential snags, stumps and outcrops as well as wetlands and water courses, keeping water hazards out while delivering unparalleled stability and control.

## ARGO Low Pressure Tires

ARGO low-pressure 25-inch tires are custom engineered with a paddle design for amphibious propulsion through water and optimized traction on the most extreme off-road terrain. As a system they apply just 1.5 psi of ground pressure, dispersing pressure while achieving maximum traction over all surfaces.

## Admiral Transmission

Conquest features the premium Admiral transmission, which employs a sophisticated gearing system and dual differentials on the output shafts. When steering, the braking force is applied to a steering differential (rather than the output shafts), translating into smoother and gentler steering. It's available in High Torque (HT) configuration, which provides the ideal option when the majority of use includes operation in extreme terrain, moving heavy loads, high track use, high altitude or continuous slow-speed operations. It's capable of reaching speeds of up to 17 mph (27km/h\*)

Every ARGO transmission is designed and built by its parent company, Ontario Drive & Gear Limited – the world leader in precision gearing and high performance transmissions – to ensure the best reliability, maintainability and smooth, efficient transfer of power to the ground.

## Extended Range

Aurora models feature a large 7.1-Gallon (27 litres) fuel tank that provides hours of continuous operation, allowing owners to go the distance.

## Load and Towing Capacity

The Conquest XTV is designed and built to haul and tow the most gear that sportsmen and owners demand, with a towing capacity of 2,000 pounds (816 kg). The load capacity is 1,170 pounds (531 kg) on land and 470 pounds (213 kg) in water. Compared to other ARGO recreational XTVs, Conquest is 6 inches longer, 5 inches wider and 2 inches taller. The two rear side seats are perpendicular to the chassis, allowing ample occupant space as well as easily accessed space for loading big game.

## Ground Clearance

With 10 inches (254 mm) of ground clearance, ARGO XTVs are built to tackle the roughest terrain.

## Quiet Muffler

Our quiet muffler helps reduce radiated noise from the vehicle, making for a more enjoyable ride for passengers and drivers alike and especially for hunters, who count on the element of surprise.

## Steel Offset AirLock™ Rims

Conquest features steel bead lock rims that mechanically lock the tire bead to the rim. With each tire firmly secured to its rim, enables an incredibly low 1.5-psi tire pressure for a smoother, more comfortable ride over rough terrain as well as maximum cornering performance.

## Hydraulic Steering Brakes

Every ARGO XTV is equipped with hydraulic steering brakes for powerful, controlled steering in the full range of conditions and terrain. These brakes are activated via the steering wheel to control the power output from the transmission to the wheels on either side of the machine.

## Dependable 4-Stroke EFI Engines

Conquest XTVs are powered by dependable V-Twin 4-stroke gas engines. The 800 produces 30 horsepower and is liquid cooled. The 950 is fan cooled and delivers 40 horsepower. They feature electronic fuel injection (EFI) for sure starts and automatic air and temperature compensation in all climate conditions, including high altitudes.

## Dual Rear Entry Steps

Conquest features dual rear entry steps for added convenience.

## 4500-Pound WARN Winch

Conquest come equipped with a mighty 4500-LB WARN Winch for the ultimate in utility, ease-of-use and durability. The winch is conveniently operated via an on-dash actuator.

## Bilge Pump

A built-in bilge pump quickly and effectively evacuates water that enters an ARGO XTV.

## 800 OUTFITTER 8X8

### ENGINE

DISPLACEMENT	747 cc
CYLINDER	V-Twin
FUEL SYSTEM	EFI
COOLING	Liquid Cooled
ALTERNATOR OUTPUT (MAX)	60 amp
HP	30HP

### STEERING/WHEELS/TIRES

RIMS	Steel AirLock
TIRES	Argo XT119 25x12-9
GROUND PRESSURE - TIRES	1.7 psi [13.5 kPa]
GROUND PRESSURE - TRACKS	1.06 psi [7.3 kPa]
GROUND CLEARANCE - TIRES	10.0 in [254mm]
GROUND CLEARANCE - TRACKS	11.0 in [279 mm]

### POWERTRAIN

TRANSMISSION	Admiral
TRANSMISSION OPTION	ST
HD DRIVE BELT	Standard
SERVICE BRAKES	Hydraulic
STEERING BRAKES	Hydraulic
AUTO CHAIN LIUBRICATION	Standard

### DIMENSIONS/WEIGHT/CAPACITY

LENGTH	125 in [3,175 mm]
WIDTH	65 in [1,651 mm]
HEIGHT	53 in [1,346 mm]
LOAD CAPACITY - LAND	1,163 lb. [528 kg]
LOAD CAPACITY WATER	463 lb. [210 kg]

### DIMENSIONS/WEIGHT/CAPACITY - CONTINUED

TOWING CAPACITY	2,000 lb. [907 kg]
WEIGHT	1,923 lb. [872 kg]
FUEL CAPACITY	9.5 US gallons [36 litres]
SEAT CAPACITY	6 Land / 2 Water
FRONT RACK	Standard
SPEED ON LAND (HT)	17 mph [27 km/h]
SPEED ON WATER	3 mph [5 km/h]

### FEATURES

BRUSHGUARD	Standard
WINCH	4,500 lb. WARN Winch
SKID PLATE	Standard
BILGE PUMP	Standard
AXLE BEARING EXTENSIONS	Standard
ENTRY STEP	Dual Rear Entry Steps
OPERATING CONDITIONS	All weather, all terrain, -40°F to +104°F [-40°C to +40°C]

### COLORS

AVAILABLE COLORS	Breakup Country Camo/ Shadow Grass Camo
------------------	--

## 950 OUTFITTER 8X8

### ENGINE

DISPLACEMENT	993 cc
CYLINDER	V-Twin
FUEL SYSTEM	EFI
COOLING	Fan Cooled
ALTERNATOR OUTPUT (MAX)	50 amp
HP	40HP

### STEERING/WHEELS/TIRES

RIMS	Steel AirLock
TIRES	Argo XT119 25x12-9
